Assistant Director for Operations 6 August 1952

Chief, FBID

Progress report for July 1952

ADMINISTRATION:

1. Agency action for acquisition of the [redacted] ranch site near Santa Rosa, California for the new West Coast Bureau station has been completed. A contract for the purchase of 137 acres of the Peterson Brothers' property has been signed, and the sum of $82,000 has been transferred to the Department of Justice for the purchase. A court order has been issued to the Agency for right of purchase of 346 acres of [redacted] A court ruling on the value of the 346 acres is expected in the fall. Floor plans for the new station are being prepared by the Agency architect in consultation with the Chief Engineer, FBID. 50X1 50X1

2. A staff study on monitoring coverage of the Soviet Baltic States was submitted with the recommendation that it be circulated to interested offices for comment. Its purpose is to determine consumer interest in such coverage prior to further negotiation with the BBC for establishment of a monitoring operation in Stockholm.

3. A project covering an on the spot survey of monitoring potential in Pakistan was approved by the DDI on 4 August.

4. The [redacted] Bureau filled its monitor T/O and continued to expand coverage. Right of entry for the remaining beverage antenna was received from the Japanese-American Joint Commission. Construction of the antenna began 5 August. 50X1

5. Okinawa construction projects:

a. Quarters for native personnel and additional storage facilities were completed.

b. Ground has been broken and the contractor is proceeding with the basic BOQ-Club-Shelter structure. Unnecessary features are being eliminated to reduce costs.

c. Arrangements are being made with VOA to extend the Grove, Shepherd, Wilson and Kruge contract to include the second group of typhoon-proof houses. VOA agrees in principle to the extension.

6. A formal request was presented to the Commanding General, Ryukyus Command, that FBIS site needs be considered in connection with any long term plans for use of the Sobe - ASA area, in the event that relocation of the Okinawa Bureau ever becomes necessary. Hq. USAF has directed FEAF and the 20th AF to give maximum consideration to locating interference producing facilities of the [redacted] development plan toward the south end of the field, or away from the FBIS antenna field. 50X1

7. Standard test procedures have been established for use in recruiting monitors throughout FBIS. Field bureaus are preparing written and recorded tests in languages within their coverage responsibilities.

8. The German Bureau is scheduled to move to other quarters in the [redacted] about 1 September. Modern monitoring equipment and facilities designed for the new quarters are en route to Frankfurt. 50X1

9. It is anticipated that the Tokyo Bureau will not move until the spring of 1953. Modern monitoring facilities are being planned for the new bureau quarters.

10. Communications:

a. As an aid in routing communications from London, Bureau of Standards telephone service forecasting radio propagation conditions every six hours was procured on a regular basis without cost. This information is sent to London by signals.

b. Library facilities at the East Coast Bureau were moved to another room in preparation for the installation of emergency lines and communication equipment in the vacated space. The lines are to be installed 18 August by the telephone company.

11. Personnel:

a. [redacted] assumed duty as Chief, Okinawa Bureau, on 14 July. 50X1

b. [redacted] will be transferred from London to Vienna for duty as Chief, Austrian Bureau, on or about 1 September. 50X1

c. The Clerical Personnel Procurement Section has been reacquainted with FBID's problem of recurring teletype operator vacancies. Presently six vacancies exist in departmental headquarters and the East Coast Bureau, with one assured applicant.

d. By questionnaire, all FBID professional and technical personnel have provided current qualifications and assignment preference information. The information is used in field bureau personnel replacement plans. Foreign language proficiency has been coded from the questionnaires.

e. The entrance on duty of two clerk-stenographers has brought the division-wide T/O for this category up to strength.

12. Supplies and Service:

a. Initial steps were taken to requisition necessary supplies, equipment, and services in connection with the FBID emergency program.

b. The purchase of a vehicle for the Saigon Bureau has been approved by the Acting Deputy Director for Administration.

13. The program for reissuing all appropriate CIA regulations as FBIS regulations is 50% completed.

14. To provide for an expanded T/O in Special Reports Branch, assigned space was reorganized and necessary carpentry work completed.

OPERATIONS:

15. Agreement was reached with the Head, BBC Monitoring Service, to hold the next Coordinating Committee meeting in Washington in November, 1952.

16. At the request of OCI Requirements Division, FBID is experimentally withholding its occasional point-to-point intercepts from publication and submitting them to OCI for examination. OCI had originally been the only recipient of such material but had requested it be discontinued some months ago. The distribution of selected items in [redacted] form provoked the new OCI requests. 50X1

17. A revised abridgement of "Program Schedules of Foreign Broadcasting Stations", comprising data on Communist controlled transmitters was issued to meet the demand for additional copies, pending a new issue of the complete publication.

SPECIAL REPORTS:

18. Summaries of foreign radio reactions to the nominations of General Eisenhower and Governor Stevenson were prepared for the President.

SECURITY INFORMATION

Acting Assistant Director for Operations 10 July 1952

Chief, FBID

Progress Report for June 1952

ADMINISTRATION

1. The Hokkaido Bureau has absorbed Okinawa Bureau's Russian regional coverage, utilizing monitors transferred from the Okinawa and West Coast Bureaus and temporary antenna facilities. Antenna construction was completed with the exception of the 315 degree beverage, on which an application for a permit for right of entry to private property is pending. Efforts continue to rent suitable Western-style Japanese housing in the Sapporo area. Full activation and expansion of coverage await completion of technical installations and the results of recent recruiting efforts.

2. The question of possible establishment of FBID monitoring facilities in Pakistan and the entrance of an FBID survey team into Pakistan was unexpectedly reopened. It is planned that the survey group will depart for Pakistan about 15 August. Emergency kit and supplementary equipment, supplied by the Mediterranean Bureau, will be used for the tests. A project for the survey is in preparation for the Projects Review Committee.

3. Progress on Okinawa construction projects:

a. Completion of construction of quarters for native personnel and additional storage facilities at Bolo Point is now scheduled for early July.

b. The award of contract for the BOQ-Club-Shelter building was made 30 June on a bid of $70,590. This is the maximum funds available. Estimates are being obtained on the cost of finishing the structure according to the architect's plans. These are expected to run in the neighborhood of $30,000.

c. Necessary U. S. materials for the construction of eight typhoon-proof three-bedroom family houses were ordered by the contractor. Deliveries on Okinawa should begin in August.

4. [redacted] Deputy Chief, FBID, returned to official duty and received orientation under the direction of the CIA Orientation Officer and in various support offices of the Agency. 50X1

5. Arrangements were made between the Agency and the Lands Division of the Department of Justice to purchase 137 acres of the [redacted] for $82,000 and to condemn 346 acres of [redacted] Ranch at Santa Rosa, California. Both parcels comprise the [redacted] site on which FBID will build the new West Coast Bureau. 50X1 50X1 50X1

6. The Los Angeles Department of Water and Power conducted additional tests to determine whether the proposed installation of the 138,000 volt power line near the present West Coast Bureau's antenna field would be a source of interference to operations. The Assistant Director for Communications believes that while the results of the additional tests do not eliminate the possibility of operational interference, construction of the power line with standard components should be permitted, with the stipulation that any interference to West Coast Bureau operations thereafter will be expeditiously eliminated. Accordingly, a letter will be sent to the Los Angeles Department of Water and Power requesting they agree that they will install appropriate filters immediately if power line interference should develop.

7. Air Force plans envisage the development over a period of several years of a base with extensive aircraft maintenance facilities at Bolo Point, Okinawa, in the vicinity of the FBID station. FBID has been advised by the Air Force that it would be appropriate to consider an alternate site for the Okinawa Bureau in the event that future Air Force activity should require the space now occupied by FBID antennae, or in the event that war should make a move from Bolo Point advisable.

8. The Deputy Director for Administration was briefed on a Mediterranean Bureau housing problem which is anticipated in connection with the forthcoming location of a U. S. Air Force activity several miles to the west of the FBID station in Cyprus.

9. Thirty FBID employees, the majority of them Information & Editorial Specialists, completed the course in Reading Improvement sponsored by the Office of Training.

10. An air conditioning system for the Teletype and Wire rooms in FBID was placed in operation on 17 June.

OPERATIONS

11. Arrangements were completed with IBS, Department of State, for a daily 20,000-word wire file of the London and Mediterranean Bureau product from London to the Munich studios of Voice of America. This service commenced 1 July.

12. For the first time in FBID's history, the London Bureau met all wire file commitments during the month of June without resorting to the use of commercial communications facilities.

SPECIAL REPORTS

13. The following special reports were issued:

"Soviet Radio Propaganda Regarding Negro Persecution in the United States," prepared for OCI, 13 June.

"Radio Free Japan," issued as a Supplement to the Survey of Far East Broadcasts, 17 June.

"Radio Moscow's Use of Salisbury's Dispatches," prepared for the DD(I), 18 June.

"An Analysis of Soviet Newscasts," issued as a Supplement to the Survey of USSR Broadcasts, 20 June.

14. The Operational Information and Personnel Reports for June are attached.

Administrative Officer, FBID

Notes for Progress Report

1. About 30 FBID employees, the majority of them Information and Editorial Specialists, completed the course in Reading Improvement sponsored by the Office of Training.

2. The air conditioning system for the Teletype and Wire Rooms was put into operation on 16 June.

3. [redacted] Deputy Chief, FBID, returned to official duty and received orientation under the direction of the CIA Orientations Officer in various support Offices of the Agency. 50X1

~~4. Preliminary plans were discussed and arrangements made for reception tests to be made about September in the area of Lahore, Pakistan.~~

5. Vehicle Procurement Status

Bureau	Vehicle	Status
East Coast	Station wagon	Delivered
West Coast	2 station wagons	Delivered
London	Station wagon	In cargo
Mediterranean	Station wagon	In cargo
	2 busses	Ordered (local purchase)
Okinawa	Truck (heavy)	In Procurement
	Pick-up truck	In cargo
	Bus	In Procurement
	Station Wagon	In Procurement

[redacted] 50X1

Vehicles for the East and West Coast were provided by Administrative Service. While all other vehicles were included as requirements in the FY 53 budget, current vehicle procurement procedures and the urgent need for delivery to the field as early as possible in FY 53 necessitated transferral of procurement action to FY 52.
